Dear Pastor,

My associate Robert Lamm and myself were encouraged to see an effort such as yours being promoted in our Nation's Capitol. So many decisions that impact the lives of all Americans are made in your location. While we know many people all over the country do lift their leaders up in prayer we realize direct contact ministry is so important. We know your outreach will not only include the political leadership but also those men and women who labor behind the scenes with them helping them gather the information they need in formulating their decision.

We know that changed hearts and the influence of an indwelling Holy Spirit are a persons only hope for a better future. The same can be said of our nation. Only changed hearts for those who are leading us will secure a future for us and those who are to follow.

Please keep Mr. Lamm and myself apprised of your efforts and accept the enclosed gift for your organization as our recognition for those efforts. May you always be found faithful in the Masters service and in His will for your life.

Sincerely,

Robert Myers

Meeting the Professional and Spiritual Needs of Working Professionals

The NNCMW, a professional development and networking organization, was founded on the belief that working individuals should be united with other Godly people, standing shoulder-to-shoulder, sharing and gleaning resources.

Christians and people of faith, who are individuals working in the marketplace, need the support of an organization to promote professional as well as spiritual growth. Members of the NNCMW benefit from networking with other working individuals who are Christians and those of other communities of faith.
